ВСТУПЛЕНИЕ

Сегодня как никогда нам важно понять, что по соседству с нами живут самые разные существа – мы дышим одним воздухом, пьем одну воду и делим друг с другом одно пространство. Понимание этого просто необходимо, если мы – люди – считаем себя хозяевами вселенной, а значит, из поколения в поколение несем ответственность за все живое на Земле и обязаны защищать его.

Если вы обожаете животных, птиц и рыб, населяющих наш прекрасный мир, а их изображения (рисунки, орнаменты или, возможно, скульптуры) вызывают у вас бурю положительных эмоций, значит, вы не намного отличаетесь от наших предков, даже тех, что жили 30 000 лет назад. Изображения животных также были частью их жизни – ими они украшали стены пещер, где жили, и орудия труда из кости и рога. Художник и скульптор эпохи Ренессанса Микеланджело, расписывавший Сикстинскую капеллу, художник XIX века Уистлер, украшавший стены широко известной Павлиньей комнаты в Лондоне (ныне представленной в галерее Фриер) изображениями павлинов, а также вы, рисующие на стенах своей гостиной птиц и бабочек, — все делают то же самое, что и пещерные люди, изображавшие на стенах пещер скачущих диких лошадей.

Кажется, мы – люди – получаем внутреннее удовольствие от всего зооморфного. В домах многих из нас можно увидеть орнаменты в форме животных, одежда, которую мы носим, часто украшена мотивами из дикой природы, на стенах детских комнат часто изображают милые хорошенькие существа, а на телах некоторых из нас можно увидеть татуировки в виде настоящих или вымышленных чудовищ. Этот справочник, изобилующий изображениями животных, птиц, рыб и насекомых, был создан для вас – любители живой природы и искусства, дизайнеры и ремесленники. Иллюстрации были собраны в процессе анализа творчества многих сотен художников и ремесленников, живших в течение нескольких тысячелетий. К счастью, жители нашей эпохи не только творчески смотрят в будущее, но и охотно оглядываются назад в поисках вдохновения. В нашем распоряжении впечатляющее наследие! Почитание опыта прошлых поколений позволяет нам не только воспроизвести то, что делали наши предки, но также дальше развиваться, опираясь на этот прочный фундамент. Изучив эти орнаменты, поняв их смысл и технику, с помощью которой они были созданы, мы сами вырастем профессионально и сможем создавать новые чудесные изображения.

В животных мотивах встречается так много интересных форм, текстур, линий и цветов. Пожалуй, в них представлены все элементы искусства и дизайна. В этой книге вы найдете ясные и четкие иллюстрации, которые помогут вам в создании собственных работ, а также многому вас научат и станут источником вдохновения.

Все иллюстрации точно передают манеру и ощущения, характеризующие стиль, к которому они принадлежат. Вы отправитесь в увлекательное путешествие во времени и изучите самые разные исторические стили дизайна, относящиеся к эпохе каменного века, древним культурам Месопотамии, Евразии, Азии, Европы и обеих Америк, познакомитесь со средневековыми и исламскими культурами. В конце путешествия вашему вниманию будут представлены направления в искусстве XX века.

В каждой главе вы найдете изображения животных, характерные для определенной культуры. Это очень поможет студентам-искусствоведам, которые хотят узнать, когда впервые было изображено то или иное животное. Лев – одна из самых популярных тем в дизайне и искусстве – впервые был изображен древними шумерами и часто использовался во все века вплоть до наших дней. Шумеры делали акцент на достоинстве этого животного, ассирийцы отобразили его свирепость, а хетты изображали спокойного льва, с длинным, как у собаки, языком. Такие разные подходы к одной теме называются «композиционные традиции». Они будут очень полезны дизайнерам, изучающим разные техники и стили.

Эти красивейшие изображения были выбраны, поскольку все они отражают жизненную силу животных и их достойное поведение. Олень с великолепными рогами убегает от ассирийских охотников, минойские буйволы склоняют свои рога, лошади, наряженные со средневековой роскошью, легко скачут под седлами паломников, элегантные журавли расправляют крылья и взлетают в небо Японии.

Изображения также дают нам возможность представить, что вдохновляло наших предков. Так, вы поймете, что жившие в Европе пещерные люди считали диких лошадей не только источником пропитания, но также восхищались их скоростью, силой и красотой. Они рисовали и высекали лошадей на стенах своих пещер. Элементы этих изображений часто используются во многих любимых нами и хорошо узнаваемых современных произведениях искусства.

Это путешествие во времени также позволит вам познакомиться с внутренним миром художников и ремесленников, поскольку, внимательно изучая их работы, вы с удовольствием узнаете об их желаниях и фантазиях. Перерисовывая один из старинных орнаментов, вы в некотором смысле возрождаете самого художника и становитесь частью его жизни. Вы создаете связь с другим временем и местом, и добиться этого каким-либо другим образом очень сложно.

Все мотивы представлены в книге в черно-белом варианте, чтобы сделать их копирование, руками или с помощью техники, максимально простым и точным. Обратите внимание, что вы можете копировать изображения только для использования в личных целях.

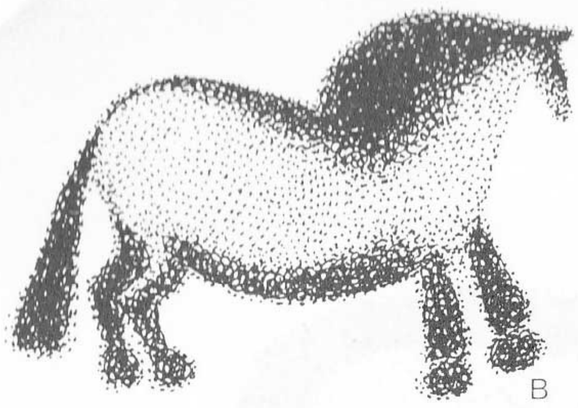

Справочник содержит подробный и удобный в использовании указатель, что не только облегчит вам поиск изображений конкретных животных, но также поможет вам найти определенные виды животных по месту их обитания или по особенностям их поведения.

Желаю вам многих счастливых часов продуктивной творческой деятельности. Это станет вашим щедрым вкладом в будущее.

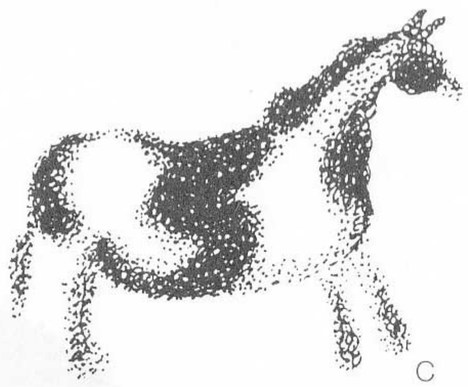

Грэхем Лесли Маккэлэм
